Summary

Front-end developer with 1.5+ years of experience in designing, developing, and deploying production-ready web applications. Experienced in building scalable, accessible user interfaces and contributing to open-source projects.

Education

Masters of Computer Application <i>Banaras Hindu University</i>	2023 - 2025 7.59/10
B.Sc. (Hons) Computer Science <i>SSCBS, University of Delhi</i>	2020 - 2023 8.2/10
AISSCE (Science with CS) <i>St. Francis Academy, Auraiya</i>	2019 - 2020 89.8% [449/500]

Experience

Full-Stack Developer <i>PsyConnect</i>	July 2025 – Present AIC-BHU, Varanasi
- Built a mental health platform serving 100+ users and 10+ psychologists. - Designed system architecture and developed the application using Next.js, TypeScript, & modern frontend tooling. - Built responsive and accessible UI components while collaborating closely with designers and product stakeholders. - Managed CI/CD pipelines, deployment workflows, documentation, and mentored interns on development best practices.	
Freelance Full-Stack Developer <i>Self-employed / Contract</i>	Apr 2024 – Dec 2024 Remote
- Delivered 3 client applications end-to-end, handling architecture, frontend, backend, deployment and maintenance. - Worked as a contract developer for Dashseller Inc., implementing core features and frontend UI modules. - Handled end-to-end development including requirement gathering, UI implementation, testing, and deployment. - Collaborated with distributed teams in remote environments while meeting tight product deadlines.	
Frontend Developer <i>Pixelwand</i>	Jul 2023 – Jul 2024 Hybrid (Noida)
- Developed responsive UI components using React, Next.js, TypeScript, and Tailwind CSS. - Built and maintained modular design systems to ensure UI consistency across multiple projects. - Converted product requirements into interactive UI prototypes and production-ready interfaces. - Collaborated with clients to understand product needs and propose effective technical solutions.	

Professional Projects

GetLifeGuard <i>Next.js, TypeScript, TailwindCSS, shadcn/ui, Prisma & MongoDB</i>
- Led development of an international e-commerce platform aligned with client business goals. - Implemented Stripe payment processing with ShipMonk order fulfillment. - Designed secure API middleware with rate limiting. - Managed database access using Prisma ORM.
PsyConnect Website <i>Next.js, TypeScript, TailwindCSS, shadcn/ui & Framer Motion</i>
- Architected and delivered PsyConnect's web platform, owning system design, design system, and deployment. - Built a scalable frontend using Next.js, TypeScript, TailwindCSS, shadcn/ui, and Framer Motion. - Delivered a production-ready platform with optimized performance, SEO, and maintainability.

Personal Projects

Portfolio Website Template | *Next.js, TypeScript, TailwindCSS, Framer-Motion*

- Developed an open-source portfolio template platform, garnering 200+ stars and 60+ forks from the open-source community.
- Designed an open-source project with user-friendly interfaces and extensive re-usability, enabling anyone to create portfolios effortlessly, resulting in 10+ collaborators and 50+ users.

Easy Fix | *React.js, JavaScript, TypeScript, TailwindCSS, Vitest*

- Created an open-source platform aimed at facilitating easy issue discovery, fostering collaboration within the open-source community, garnering over 50 stars.
- Created and maintained this open-source project, complete with comprehensive documentation, user stories, and flow diagrams, attracting a diverse group of 15+ global contributors.

Open Source Contributions

Milan | *React.js, JavaScript, Express, TailwindCSS*

- Contributed to a widely used open-source portfolio platform with 300+ GitHub stars.
- Implemented reusable UI components including buttons and modals using React Portals, improving UX consistency.
- Enhanced form components with UX improvements and bug fixes; contributions merged via PRs #691, #615, #611.

Developer-Portfolio | *Next.js, JavaScript, TypeScript, Bootstrap, Animations*

- Contributed to an open-source portfolio website project with 500+ stars on GitHub.
- Migrated NextJs application from JavaScript to TypeScript. PR#44.
- Setup development environment by implementing Prettier. PR#43.

Technical Skills

Languages: C/C++, JavaScript, TypeScript, HTML, CSS, SASS, Python

Technologies: Next.js, React.js, Node.js, Prisma, Tailwind CSS, shadcn/ui, Framer Motion, Figma

Concepts: Frontend Architecture, CI/CD, Design Systems, Performance Optimization (Core Web Vitals), Accessibility (WCAG), Project Management, Data Structures & Algorithms
