| <b>PsyConnect Website</b>   <i>Next.js, TypeScript, TailwindCSS, shadcn/ui &amp; Framer Motion</i>                                                                                                                                                                                                                                                                    |
| <ul style="list-style-type: none"><li>Architected and delivered PsyConnect's web platform, owning system design, design system, and deployment.</li><li>Built a scalable frontend using Next.js, TypeScript, TailwindCSS, shadcn/ui, and Framer Motion.</li><li>Delivered a production-ready platform with optimized performance, SEO, and maintainability.</li></ul> |

## Personal Projects

---

### **Portfolio Website Template** | *Next.js, TypeScript, TailwindCSS, Framer-Motion*

- Developed an open-source portfolio template platform, garnering 200+ stars and 60+ forks from the open-source community.
- Designed an open-source project with user-friendly interfaces and extensive re-usability, enabling anyone to create portfolios effortlessly, resulting in 10+ collaborators and 50+ users.

### **Easy Fix** | *React.js, JavaScript, TypeScript, TailwindCSS, Vitest*

- Created an open-source platform aimed at facilitating easy issue discovery, fostering collaboration within the open-source community, garnering over 50 stars.
- Created and maintained this open-source project, complete with comprehensive documentation, user stories, and flow diagrams, attracting a diverse group of 15+ global contributors.

## Open Source Contributions

---

### **Milan** | *React.js, JavaScript, Express, TailwindCSS*

- Contributed to a widely used open-source portfolio platform with 300+ GitHub stars.
- Implemented reusable UI components including buttons and modals using React Portals, improving UX consistency.
- Enhanced form components with UX improvements and bug fixes; contributions merged via PRs #691, #615, #611.

### **Developer-Portfolio** | *Next.js, JavaScript, TypeScript, Bootstrap, Animations*

- Contributed to an open-source portfolio website project with 500+ stars on GitHub.
- Migrated NextJs application from JavaScript to TypeScript. PR#44.
- Setup development environment by implementing Prettier. PR#43.

## Technical Skills

---

**Languages:** C/C++, JavaScript, TypeScript, HTML, CSS, Python

**Technologies:** Next.js, React.js, Node.js, Prisma, Tailwind CSS, shadcn/ui, Framer Motion, Figma

**Concepts:** Frontend Architecture, CI/CD, Design Systems, Performance Optimization (Core Web Vitals), Accessibility (WCAG), Project Management, Data Structures & Algorithms
